

## The Haven

The Haven floor plan provides 720 square feet of heated/cooled space. It is great for small lot sizes, additional units on your property, as well as "mother-in-law" residences. With 1 bedroom and 1 bathroom, this charming rendering above shows a porch completed on site that provides a warm and welcoming entrance that opens into the living area.

The square footage and other dimensions on our floor plans are approximate. Renderings are not intended to be an accurate representation of the home and are often shown with optional features and/or third-party additions that can be added at additional cost if available in your region or situation.
