

Coral Cottage

The Coral Cottage interior is very efficient with space. Yet, with the front & rear porches, you can easily move living outdoors. The smaller size of a bungalow makes it ideal for couples, singles, roommates, and those who want to downsize their lives. Having all the living space on a single floor also makes it great for older adults or those who have mobility issues.

The square footage and other dimensions on our floor plans are approximate. Renderings are not intended to be an accurate representation of the home and are often shown with optional features and/or third-party additions that can be added at additional cost if available in your region or situation.
