

Deerwood

The Deerwood is a tight and compact home with everything needed for comfortable living. Designed to fit on a narrow lot, it has an inviting front porch street side, and a nice private porch in the rear. The Deerwood opens off the front veranda into a formal foyer with a coat closet. Off the rear portico, you have the mechanical closet with an air handler for heating and cooling. This design also supplies some outdoor storage for yard chores. The home is perfect as a single family dwelling, or as an investment rental property.

The square footage and other dimensions on our floor plans are approximate. Renderings are not intended to be an accurate representation of the home and are often shown with optional features and/or third-party additions that can be added at additional cost if available in your region or situation.
