

Dogwood

The Dogwood is the perfect size home for a new family or for those that want to downsize. There is a large living room, perfect for relaxing with the family or entertaining guests. Bedrooms are tucked away privately from the living and dining area. Included in the design is a formal entry foyer with a large guest closet, a master bedroom with a large walk-in closet, and a side entrance perfect for adding a garage or carport onto the home. Optional windows or doors make the plan even more versatile.

The square footage and other dimensions on our floor plans are approximate. Renderings are not intended to be an accurate representation of the home and are often shown with optional features and/or third-party additions that can be added at additional cost if available in your region or situation.
